Is UNCG Right for me?

UNCG is located in the dynamic city of Greensboro, North Carolina (population 260,000). Greensboro is the third-largest city in the state. The cities of Greensboro, Winston-Salem, and High Point make up the Piedmont Triad area. UNCG's picturesque campus includes 30 academic buildings and 24 residence halls on 210 acres.

Enrollment

Approximately 17,500 on campus students (34 percent male, 66 percent female) from 48 states and more than 89 countries attend UNCG. The fall 2010 freshman class was the largest ever at 2,515. Ethnic minority enrollment is about 33%.

Classes and faculty

Average class size is 27 students. Approximately 1,700 classes are offered each semester. Student to faculty ratio is 17:1. Ninety percent of the classes are taught by professors.

Speech Pathology and Audiology Major

The Department of
Communication Sciences &
Disorders

A Bachelor's Degree

THE UNIVERSITY of NORTH CAROLINA
GREENSBORO
School of Health and Human Sciences

¹ Jobs require additional training, education, certification, or licensure

What does the CSD Program offer?

The Speech-Language Pathology and Audiology Major provides a pre-professional program for those preparing for graduate study in speech-language pathology and audiology. The program is offered on two separate tracks.

- Traditional Bachelor: the student applies to the program second semester sophomore year and completes the program with a four year Bachelor's Degree.
- Second-Degree: the student has already completed their Bachelor's in another area of study. They complete all pre-requisites for graduate school in an intensive year of study.

UNCG Chapter of NSSLHA

The National Student Speech and Language Hearing Association is a group that advocates for inclusion and advocacy and provides a great way to become exposed to different organizations in the community.

- Has nearly 100 members, from the undergraduate, second degree and graduate levels
- volunteer at events like the Autism Walk/Run and Walk4Hearing
- host meetings with professionals in different Speech-Language and Audiology settings
