About The Center

UNCG Speech and Hearing Center offers professional services for evaluation and treatment of speech, language, and hearing disorders as well as communication differences for people across the lifespan. In operation since 1967, it is open to the public and serves as a training facility for graduate students in the Department of Communication Sciences and Disorders in the School of Health and Human Sciences. Graduate student clinicians work with clients under the direct supervision of UNCG faculty members.

The mission of the Center is to provide clinical education to graduate students, participate in clinical research and community engagement, and provide evaluation and treatment of adults and children with speech, hearing and language disorders.

Diagnostic Services

- Hearing, speech, and language evaluations
- Dyslexia and dysgraphia evaluations
- Foreign accent modification screenings
- Auditory processing evaluations
- Tinnitus and hyperacusis evaluations

Summer Camps

Two-week summer camps are available for children and adults with traumatic brain injury, intellectual disabilities, and/or language and literacy disorders. The Center collaborates with Horsepower Therapeutic Learning Center to provide camps for adults.

Hearing Conservation

UNCG audiologists are certified to provide the Dangerous Decibels® program, which teaches children and adults in the community about protecting themselves from noise-induced hearing loss.

Therapy Services

- Speech and language intervention for children and adults with disorders related to traumatic brain injury, stroke, dementia, stuttering, apraxia, dysarthria, articulation, language, reading, writing, spelling and auditory processing
- Instruction in accent modification for speakers of English as a second language
- Instruction for persons wanting to code-switch between Standard American English and a dialect
- Hearing aid consultation and fitting
- Tinnitus and hyperacusis management
- Listening for Life group workshop series for adults with hearing loss
- Listening training for auditory processing disorders
